

VIEW® Pro Video Walls

VIEW® Pro is the ultimate, professional multimedia streaming solution for existing IP networks. Meet the needs of AV over IP applications from simple digital menus with few displays to complex video walls scalable to hundreds of displays.

- > Provides a flexible solution to combine multiple video streams on one or more displays in any layout combination.
- > Purchase video wall licenses per device as and when you need them.
- > Perpetual license model per device.
- > Download free PANORAMA software and unlock the power of designing your own video wall.
- > Works with VIEW Pro Encoders E110, E120; VIEW Pro Decoders D110, D210.

APPLICATIONS:

- Command & Control
- Multi-imaging
- Advanced digital signage
- Sports multi-views
- Digital menus
- Transit maps & schedules

WORKSPACES:

- Corporate
- Command & Control Centers
- Telemedicine & Healthcare
- Hospitality & Entertainment
- Transportation hubs
- Houses of Worship

Video walls without the complexity

Combine a VIEW Pro video wall license with PANORAMA™ software and eliminate video processing equipment to reduce rack-space, power, and cabling in building video walls - any size, any complexity.

Easy to Use

Easy-to-use PC or MAC software allows WYSIWYG configuration.
